**Cheap Baking Powder Destroyed by Board of Health.**  
**Found to Contain Alum and Ground Rock**

The Health Department of New York has seized several tons of Sweethart Baking Powder, made by the Southern Soda Works, of Nashville, Tenn., found upon sale in that city. Samples of Baking Powder were analyzed and found to contain alum and ground rock. It was declared dangerous to health and dumped in the rock.

This brand of baking powder has been placed upon sale in several stores in this vicinity where it is retailed for 25 cents a pound or even higher. Its value may be judged from the fact that it was being retailed in New York at 4 cents a pound.

## ATTENTION VETERANS.

We are requested to say that a meeting of the Confederate Veterans Association will be held in Statesboro on the first Monday in April for the purpose of selecting delegates to the Dallas Convention.

## Stole A Tooth.

We have heard of many different articles being lifted by the members of the light fingered craft, but the first instance of a tooth being stolen comes to light this week. A. F. Waldon a young man recently from Glascock county has been sojourning at the home of Dr. J. K. Hendricks near Portal. It seems that Waldon was an all round crook and appropriated to his own use many articles belonging to Dr. Hendricks. He was charged with the theft of a number of domestic articles a few days ago, and a search of his person and trunk revealed a number of stolen articles which had really not been missed at that time, among them a gold tooth belonging to Mrs. Hendricks.

Waldon had departed for more congenial climes before the sheriff arrived on the scene.

**WANTED**—A young man who lives in the country, with some experience, to take orders for suits and trousers. Samples furnished. For particulars, apply to A. Getz, The Tailor, Savannah, Ga.

## Stealing Hogs.

The vicinity of Portal, this county, is the scene of considerable excitement this week on account of two of her citizens being charged with hog stealing. It seems that the people in the neighborhood had been missing their fat hogs for some time and suspicion rested upon two white men viz., Henry Croft and Jack Alderman. When accused of the crime each one admitted a knowledge of the crime but accused the other with being the principal in the commission of the deed. A search was made and several dead hogs were dug up where they had been slain and found to be too lean for pork and were buried. Both parties will be prosecuted.

Means are again urged that the  
mildness of the State be made a  
not park. The title bought the land  
hise time ago, but little has been  
ast to improve and beautify it for  
log purposes, and the neighboring  
and pasture their cows there.  
by  
Industrially it is no longer the Old  
World. It is New Europe, a land o  
undeveloped possibilities, abounding  
d opportunity for keen capitalists of  
industry. It is nature America, the  
comple of modern industrial meth  
s, perfected mechanical ideas, and  
the economic policy.

A Harrisburg Committee of Sixty has  
contributed a fund of \$5075 to pay a  
t of experts to draw up plans for the  
sanitary and physical regeneration of  
the city. Applied science for public  
works and applied art for the parks  
are to be the results. A pamphlet  
has been issued giving the details of  
this certainly practical step toward a  
model city.

In repairing the damage done to some  
of the monuments of Stonehenge, Eng  
land, by the great storm of December  
31, 1900, evidence has been obtained  
in the excavations made which gives  
to antiquarians a clue to their age.  
Dr. Montagu fixes the date at 1500  
B. C. while Professor Norman Lock  
yer carries the time further back into  
antiquity, attributing their erection to  
a period of at least 2000 years B. C.  
These excavations prove also that the  
"blue" monoliths in the Druidic tem  
ple must have been found by the  
builders in the neighborhood of Sal  
isbury plain, and that they were not  
transported so popularly believed  
before, from either Wales or Brittany.

Inventive ingenuity continues to cast  
into the background the small arms  
which have been the pride and main  
stay of modern army equipment. In a  
week, a Chief of Ordnance Committee

types are given showing that the  
rifle or pistol is the speediest in initial  
king stronger and lighter than the  
child, "men and at at the present  
time, until within a few years  
we genius shall appear with a  
superior weapon. The old rifle

Make United States Consul to Nantes,  
recip I. Brittain, has sent an inter  
ming report to Washington on how  
the city of Nantes supplies food to the  
garrison. For several years Nantes  
as managed a system of municipal  
dishes, known as "Les Fourneaux  
Alimentaires Municipaux," where per  
sons who had no money could procure  
substantial meals by presenting a  
ticket. It has erected recently a build  
ing having in connection therewith a  
dormitory, with beds for the accom  
modation of about fifty persons, which  
are free for three nights, when the  
occupants are obliged to make room for  
others. The sick are sent to the hospi  
tal. During the stay each person re  
ceives two meal tickets a day, which  
are the only ones served—out at noon,  
and the second in the evening, from 5  
to 7.30.

Whether or not it will pay to burn  
oil instead of coal under a steam boiler  
in a given place depends on the cost of  
the two forms of fuel there. Coal  
might be cheap and oil relatively ex  
pensive in one city, while the condi  
tion is reversed elsewhere. One of  
the important parts of Profes  
sor's report on the recent test  
of Texas petroleum in New York City  
and there, in his comparison of its heat  
ing power with that of best heat coal  
costing \$3 a ton. He finds that the  
equivalent of that amount of coal  
would be from 4.12 to 4.23 barrels of  
oil. Hence it would be necessary to  
supply the latter at from seventy-one  
to seventy-three cents a barrel, in order  
that it might compete on even terms  
with solid fuel. If the product of the  
Beaumont wells can be brought to the  
metropolis for much less than this  
price, there is money in it. Otherwise  
not, states the New York Tribune.

## SKIPPED TO CANADA

Gaynor and Greene are Enjoying  
Freedom in Quebec.  
THEY WILL FIGHT EXTRADITION  
It is Believed, However, that Alleged  
Conspirators Will Be Promptly  
Surrendered to British  
Authorities.

Colonel John F. Gaynor and his part  
ner, B. D. Green, charged with conspir  
acy to defraud the United States gov  
ernment and wanted for hearing in  
Savannah, Ga., by the federal author  
ities, are registered at the Chateau  
Frontenac, according to a New York  
Herald dispatch from Quebec.  
They arrived there two days ago and  
Mrs. Gaynor joined her husband Monday.

Colonel Gaynor, in response to ques  
tions, would only say:  
"My name is registered properly at  
this hotel. Any one having business  
with me will know where to find me."  
Colonel Gaynor is well known in  
Quebec, where he has extensive busi  
ness interests.  
Notwithstanding the statement  
made by Colonel Gaynor Tuesday  
that he might return to the United  
States on the 17th, both he and Cap  
tain Greene have accepted the services  
of distinguished counsel, who, in the  
past have handled some famous fights  
against extradition proceedings in the  
Quebec province. They have retained  
to look after their interests Hon. Jus  
tice, member of the lower legisla  
ture, ex-speaker of the legislative as  
sembly and who some years ago acted  
in a like capacity for J. Eno, of New  
York and L. A. Tachereau, also a  
member of the local legislature and  
law partner of Hon. Charles Fitzpat  
rick, minister of justice of Canada.

Knox to Take Action.  
A Washington special says: The  
department of justice has not yet  
made formal application upon the de  
partment of state for the extradition  
of Messrs. Greene and Gaynor, who  
were arrested in the federal court at  
Savannah and have been discov  
ered at Quebec, Canada, but such  
application will probably be made  
at once.

The officials of the department of  
justice have been examining into the  
extradition laws and treaties upon the  
subject and announce the determina  
tion to use every means to bring these  
two men to trial. A statement was  
made Tuesday that it is not intended  
that the men shall be allowed to escape  
trial if it is within the power of the  
government to secure possession of  
them.

It is believed by the authorities that  
even if it should be discovered that  
there is any law in the extradition  
treaties or any point in which they do  
not apply to the present case, that  
Gaynor and Greene would be promptly  
surrendered by the British authorities  
to the general government of Canada.  
In Washington some able to follow  
the reasons which impelled these men  
to take this unlooked-for step to es  
cape trial at this time.

### DAVIS SLAVE HONORED.

Reverend Appoints Well Known Mis  
sissippi Negro to Office.  
It is a strange fact that the once  
slave of Jefferson Davis, I. T. Mont  
gomery, has now one of the most im  
portant federal offices in the state of  
Mississippi, having been appointed by  
President Roosevelt to the office of  
receiver of public money.

Montgomery is one of the most im  
portant negroes in the state, and the  
only colored mayor of a southern city  
having been elected mayor of the town  
of Mt. Bayou, Miss. Montgomery  
is a typical old anti-slavery man  
and always speaks in the high  
est terms of his former master.

Strike For Eight-Hour Day.  
Carriage makers, upholsterers, mat  
ress makers, indoor wire workers and  
fuel handlers in Denver, Colo., are out  
on strike for an eight-hour day and  
union wages.

### FACED BY ARMED GUARDS.

Striking Coal Miners in Virginia Are  
Kept in Check.  
A special from Bristol says reports  
from the southern Virginia coal fields  
Friday night indicate practically no  
change in the situation. Private ad  
vices are to the effect that about 1,000  
miners are now out. These men are  
face to face with armed guards and  
the situation is liable to become criti  
cal at any moment.

### BRYAN DINNER SCHEDULED.

Chattanooga Club to Celebrate the  
Nebraska's Birthday.  
A Chattanooga special says: The  
Bryan Club met Wednesday night and  
decided to give a banquet in celebra  
tion of Bryan's birthday on March 10.  
Plates will be laid for one hundred.

Miss Alice Roosevelt in Cuba.  
Miss Alice Roosevelt, daughter of  
President Roosevelt, accompanied by  
party of friends, including Senator  
Thomas C. Platt, arrived at Havana  
Wednesday on the steamer Mascotte,  
from Tampa, Fla.

The advice some of our farmers have given about farming to visit Mr. Bird and look over his land is a good idea.

We agree with our friend Mr. H. Harville, that it would be a good idea to put the pistol to life's last bond Ed.

Last Monday was Saint Patrick's day, and as usual, many a fishman tanked up.

Georgia is the Empire state of the South, and the candidates are springing up like grass, only to be cut down later in the season.

Crumphacker and other republicans tried to outdo the South's representation in Congress. Those South latters will show their teeth and meanness.

The civil war closed 37 years ago, and yet there are now 550,000 persons on the pension roll, at a cost of 140 millions a year.

Guerry will think everybody was drunk after the votes are counted.

President Roosevelt calls secession anarchy and also says Lee was the greatest general of any age. That seems to be straddling the fence very successfully.

The ship subsidy bill is strictly in the interest of Hanna and his associates. Therefore it will be passed and will become a law.

Allowing for breaks and scratches says a statistician, "the lead pencil will write fifty-five columns of solid matter, or an eight-page paper of seven columns to the page."

W. A. Wilkins of Burke's, mentioned for Congress, tempers an name plenty.

Ship subsidy bill has passed child. This is just a little of about ten millions a year to the owners of the steamship lines.

At Hanna with the dollar, it is the typical representation of the Republican party, as pleased and organized greed and rotundity.

Still never plowed a red mule. May Terrell nor a grey horse like regency, because he was not able to mow one; but he is riding a fast horse now, in the Governor's race.

Mrs. Myrick of the American Times Recorder and Mrs. Mossy of the Rome Free Lance say that Joe Terrell will be Georgia's next governor, while Miss Edna Cain of the Quintman Free Press adheres to Colonel Estill.—Athens Banner.

Honesty is not only the best policy, but it is best in every way. Shortcuts to money never pays anybody, and usually goes back on the fellow who tries it. A clean record, and an upright character is preferable to silver or gold, and the young man or old man who tries to win by ways that are dark and tricks that are vain will come to grief sooner or later.

J. P. Morgan and a party of a half dozen friends passed through Atlanta one day this week on a special train. A special engine and six vestibule cars, for his private use. Every train on the line of road was side tracked and his train given the right of way. It is said that three of the cars was carried along just as ballast to steady the train so as to prevent the motion of the engine being felt by the big multi millionaire.

## The Late Gov. Altgeld.

John P. Altgeld, of Illinois, who died last week, was a peculiar character. Like Henry George his platform was expressed in the words, "I am for men." He was an honest reformer, who sought to better the conditions of the masses, and his sympathies were with the weak and lowly. But he has been demonstrated time and time again, his work was useless and his sympathy wasted, because the common people would rather bow the knee to mammon, and worship at the shrine of the golden calf.

Altgeld knew as many other thinking men knew, that the giant corporations were seizing the government, and he raised his hand and voice against them, and they proceeded to brand him as an anarchist. If he had trusted to their boasts, and been their willing servant, he would have been a hero and a statesman. The Henry Georges and the Altgelds must give way to the Mark Hannas and the J. P. Morgans. The dollar mark is now the badge of the statesman, and the reformer, and the true friend of the masses, must take a back seat.

## AN ESSAY.

A twelve year old boy in a western school prepared an essay on "The Newspaper," which he recently read at the Friday afternoon's literary exercises. The essay contains much originality, if not great chunks of information and wisdom. Following are some extracts:

"Newspapers are sheets of paper on which stuff to read is printed. The men look over it to see if their names is in it. I don't know how newspapers came into the world. I don't think God does. The Bible says nothing about editors and I never heard of one being in heaven. The first editor I ever heard of was the fellow who wrote up the flood. He has been here ever since.

"Some editors belong to the church and some try to raise whippers. All of them raise hell in their neighborhood.

"Sometimes the paper dies, and then people feel glad, but some one starts it up again. Editors never went to school, because editors never get licked. Our paper is a mighty poor one, but we take it so ma can use it on her pantry shelves. Our editor don't amount to much, but paw said he had a poor chance when he was a boy. He goes without underclothes in winter, wears no socks and has a wife to support him. Paw has not paid his subscription in five years and don't intend to."

The water that fell last Friday, Saturday and Sunday has given the earth a good wetting, and there are probably no dry wells in Bulloch county. The lower part of the country is covered with water, all the bays, creeks and springs being full. All the creeks and branches have been on a boom, and Ogeechee river is rapidly rising and will be very full. It is better that the rains come now, than later in the season.

The Building Boom. It does seem that Statesboro has a regular building boom on hand. No less than seven two story store buildings are now under way, and several residences are going up in different sections of the city. The fellow who said the town was grown ten years ago, ought to come back again. He would open his eyes in perfect astonishment, and wonder why he was such a poor prophet. The time is at hand when small factories must come. Such things as a buggy and wagon manufactory, and other small industries must come along to pay wages to working people, who are the back bone of a town's trade. Let them come ahead.

Our stock contains all the novelties of the season in Silks, Foulards, Organdies and Dimities. The stock of All-over Laces and Embroideries is the prettiest to be found.

## Legislative Candidates.

Mr. Guerry is making state prohibition the issue in Georgia this year, and says that the candidates for senator and representatives must state how they stand on this question. This is fair and right and proper, and the question ought to be settled in Georgia.

In order that the people of Bulloch may know how the candidates for representative stand, we take the liberty of propounding the following questions to them:

First: Are you in favor of state prohibition?

Second: Are you in favor of a state dispensary law, giving the various counties the right to vote on that question?

The answers of the various candidates will be published, and the people will know their position.

## THE GROWLER.

I met the growler yesterday. He was standing on the street corner as usual. He was superintending other people's business, and acting as Guardian for the whole town, and had a lot of advice to offer to every man who came by. He was growling about everything and everybody. He was in his opinion, the only perfect man that the Almighty ever made. And all of his neighbors think he was born on the wrong time of the moon. The nation, and state, county and town was all going to the demmition how-ows, and if it was not for him, the whole thing would bust in a week.

As I heard him kicking and growling I came to the conclusion his liver was out of order, on account of approaching spring.

When a fellow is built a certain way it is a hard matter to change him, and the growler does some good after all. If you don't growl, people think you are too easy to please and take the advantage of you. They would give you half all the time at a boarding house if you did not growl some. The growler is a nuisance very often, but he is kind of a dynamic force in a community that evens up things, and keeps people from being too well satisfied.

## FROM COON HOLLOW.

I was or thinking tuther day about my nabor, and concluded they were all mitty nice and elev-er. If we got out of me-al or flour or coffee or any such thing at our home, we would run over to nabor Smith's or Jones and borrow it. If we needed a hoe or rake or any such article all he had to do was to go and borrow it. It is good to have nabor who will luvide their property with you. I knew one of them who was so kind hatted that he loaned out all of his' plows, hoes cart, and done without him-self. And aint it strange how we forget to return the things we borrow from our nabor. It is a mean trick to borrow our neighbors property and keep it. It is like buy-ing them on a credit and never paying for them. Our nabor try to oblige us, and be good to us, and we go ahead and abuse their cleverness and impose on their good nature, and some day when they get tired of being imposed on, and refuse to lend us the last meal in the barrel, or the last hoe on the place we are ready to denounce them as a red flag anarchist. They get to be our enemy, and we are to blame for it.

Moral: Dont borrow your neighbors' things.

A Successful Farmer.

Mr. Aniel Alderman, one of Bulloch's most successful farmers has sold several loads of bacon and hams in the market during the past week. Mr. Alderman brought in one load which he sold at 11 cents per pound for sides, bringing him over \$70.00. And several more loads have been hauled in. He has also just sold 7 or 8 hales of sea island cotton, bringing about \$700. We need a thousand more such farmers in Bulloch.

Working men I have just received a new lot of "Carbath Overall, best in all the world" come around and get your size, and select your "Easter suit" at the same time.

The Long Cotton Gin

Has many advantages, compared with those of modern times. A double roller gin of two lengths, 3 1/2 to 5 feet length. The 3 1/2 foot gin will gin from 3 to 4 bales in ten hours. The 5 foot gin will gin from 4 to 6 bales in ten hours.

These Gins are Adjustable, in every way, instantly, without running, to suit all classes of cotton. Hackers are raised alike, with one nut or let down with the same. Tension to both blades is given with one nut and rollers. Any pressure desired. Rest of gin adjustable every way. Rollers are the same towards and away from blades up and down, lifted by means of hand wheels. It is all done in a moment, while running. One man does the work of two. It saves house room, power, oil, labor, length of shaft, pulleys, leather, one crank shaft, for it has but one, and it will gin a thousand bales without being re-habited. For further instructions, write to me, the sole inventor.

L. L. FOSS, Mamasas, Ga.

P. S. I will not be able to build a very large amount of these gins this season. First come first served.

Husband and Wife Both in Jail Charged With Selling Liquor.

Mr. H. V. Oglesby and his wife who have been residents of Parrish for some time were both committed to jail one day last week for the offense of selling liquor, and so far have been unable to give bond.

It seems that Oglesby was found guilty last October in the superior court and on his promise to reform he got off on a light fine. But it seems instead of walking in the close and narrow way, he persisted in dealing out the stuff that produces drunkenness, and the people of Parrish got tired of such business and came down on Oglesby and his wife like a wolf upon the fold, and landed them both behind the bars to await the action of the Grand Jury.

A brother editor says: "No sensible man should get angry because a newspaper man does him for a subscription."

Madison Advertiser adds: "Don't."—Athens Banner.

## SAM NEWS.

Mr. Mitchell Alderman, better known as "Uncle Mites," has set out several sycamore trees by the side of the public road, which will in a few years beautify the front view of his place and will give shade to the passers by, as well as increase the value of the property.

Mr. John Campbell has been using the mind of ingenuity and the finger of active employment, and as a proof of this statement any one is invited to stop in and take a special look at the guano distributor that he has invented. It is a complete invention.

The spelling contest was hotly contested on either side last Friday P. M. The guests were Misses Micy Smith, Lizzie Campbell and Mr. Joshua Riggs. We are all ways glad to have people visit our school.

Mr. Dukes went off Friday P. M. to take a young lady to the school, and failed to come to the contest; but she says we may know how it was that she didn't get in on time as her caller was a charming young widower of about 40 summers.

The bachelor's home is looking all right now but if you may not keep its name much longer, for the sign or placard is out thus: "Six hundred dollars reward for the man who invented Bachelor's Home."

The rains have put the streams up very full, and some of the fords have logs floated across the roads that need moving out.

Misses Lizzie and Sallie Campbell and J. N. Strickland were the guests of Miss Lily May Nesmith last Sunday, and enjoyed the day well. Miss Lily May is the charming daughter of W. W. Nesmith, a former resident of Statesboro.

Mr. David Smith is doing considerable work in getting ready for a good crop this year, and has planted corn already.

Mr. Tommy Alderman and sister, Miss Mittie went to the Nesmith church last Sunday. Miss Mittie is a very handsome young lady, and a daughter of one of our best farmers, Mr. Aniel Alderman.

We understand that the next school adjoining this settlement has been taking a recess on account of the teacher being unwell, and we hear she is very ill of measles, but is some better just now, we are glad to report.

The farmers of this vicinity are expecting heavy crops this year. "Fluvius."

La Grippe Quickly Cured. "In the winter of 1898 and 1899 I was taken down with a severe attack of what is called La Grippe," F. L. Hewitt, a prominent druggist of Winfield, Ill. "The only medicine I used was two bottles of Chamberlain's Cough Remedy. It broke the cold and stopped the coughing like magic, and I have never since been troubled with Grippe." Chamberlain's Cough Remedy can always be depended upon to break up a severe cold, and ward off any threatened attack of pneumonia. It is pleasant to take, too, which makes it the most desirable and one of the most popular preparations in use for these ailments. For sale by W. H. Ellis.

## News From Blitch.

We are glad to say that the people of Blitch and the surrounding community are a hustling people and that they prove it by the success they have in their undertakings.

Mr. W. H. Blitch, has quite an extensive farm, which yields a handsome income, among other progressive farmers are Messrs. W. P. Donaldson and James Donaldson who are making and have made quite a success at the business.

We have been informed that we are to soon have another mercantile establishment. The more the merrier, why should not Blitch improve as well as other towns among the other advantages of Blitch and one of the most important is that we have some among the most attractive young ladies that the country affords so much so that in order to see them a young man will walk a barb wire fence fifty yds. amid torrents of rain to cross the swollen streams that have moved the foot logs, fallen in the water half dozen times and happening to a poor fellow in love might be supposed to happen to while crossing a barb wire fence.

Mr. C. W. Porter is all smiles now, ne says it is actually a girl. The congregation at the church last Sunday was very small, owing to the inclemency of the weather.

Mr. E. A. Temples made a flying trip to McIntire last Sunday visiting relatives.

Blitch can boast of a progressive school under the management of Prof. J. W. Sanders an accomplished young man formerly of Stillmore.

Aboard of an Engine.

The passenger who rides back on the nice coach, don't know how rough it is up on the engine. He rides as smooth as if he was on a summer sea aboard of a palatial steamer. The man who has charge of the train, with his hand upon the throttle, and his eyes upon the rail, knows how rough it is. Whether by sun light or by lamp light or electric light he has to jolt up and down, and keep his eyes always looking ahead. He pulls out of a station at night to make a trip of two hundred miles, and he knows not where and when the engine may roll in the ditch or plunge into a creek. The fellow back on his Pullman sleeper takes off his clothes and goes to bed, but the man on the engine must keep his eyes open, because in his hands are confided the lives of all on board. He can't talk while the engine is running, and the engineer must be a very thoughtful man as well as a watchful one. He runs some narrow risks, and has hair breadth escapes, and makes his run in storm and sunshine, by day and night. He is deserving of good wages and a pension when he is old and worn out.

# The Late Gov. Altgeld.

John P. Altgeld, of Illinois, who died last week, was a peculiar character. Like Henry George his platform was expressed in the words, "I am for men." He was an honest reformer, who sought to better the conditions of the masses, and his sympathies were with the weak and lowly. But as has been demonstrated time and time again, his work was useless and his sympathy wasted, because the common people would rather bow the knee to mammon, and worship at the shrine of the golden calf.

Altgeld knew as many other thinking men knew, that the giant corporations were seizing the government, and he raised his hand and voice against them and they proceeded to brand him as an anarchist. If he had trucked to their beliefs, and been their willing servant, he would have been a hero and a statesman. The Henry Georges and the Altgelds must give way to the Mark Hannas and the J. P. Morgans. The dollar mark is now the badge of the statesman, and the reformer, and the true friend of the masses, must take a back seat.

Altgeld knew as many other thinking men knew, that the giant corporations were seizing the government, and he raised his hand and voice against them and they proceeded to brand him as an anarchist. If he had trucked to their beliefs, and been their willing servant, he would have been a hero and a statesman. The Henry Georges and the Altgelds must give way to the Mark Hannas and the J. P. Morgans. The dollar mark is now the badge of the statesman, and the reformer, and the true friend of the masses, must take a back seat.

Georgia is the Empire state of the South, and the candidates are prying up like grass, only to be cut down later in the season.

Crumpacker and other republicans want to cut down the South's representation in Congress. Those South haters will show their teeth and meanness.

The civil war closed 37 years ago, and yet there are now 350,000 persons on the pension roll, at a cost of 140 millions a year.

Guerry will think everybody was drunk after the votes are counted.

President Roosevelt calls secession anarchy and also says Lee was the greatest general of any age. That seems to be straddling the fence very successfully.

The ship subsidy bill is strictly in the interest of Hanna and his associates. Therefore it will be passed and will become a law.—Athens Banner.

"Allowing for breaks and scratches says a statician, "the lead pencil will write fifty-five columns of solid matter, or an eight-page paper of seven columns to the page."

W. A. Watkins of Burke mentioned for Congress, an name plenty.

Ship subsidy bill has passed. This is just a little of about ten millions a year to the owners of the ship lines.

Mark Hanna with the dollar is the typical representative of the Republican party, as he has organized greed and robbery.

Still never plowed a red mule, Terrell nor a grey horse like Jerry, because he was not able to own one; but he is riding a fast horse now, in the Governor's race.

Mrs. Myrick of the American Times Recorder and Mrs. Mosely of the Rome Free Lance say that Joe Terrell will be Georgia's next governor, while Miss Edna Cain of the Quitman Free Press adheres to Colonel Estill.—Athens Banner.

Honesty is not only the best policy, but it is best in every way. Short cuts to money never pays anybody, and usually goes back on the fellow who tries it. A clean record, and an upright character is preferable to silver or gold, and the young man or old man who tries to win by ways that are dark and tricks that are vain will come to grief sooner or later.

J. P. Morgan and a party of a half dozen friends passed through Atlanta one day this week on a special train. A special engine and six vestibule cars, for his private use. Every train on the line of road was side tracked and his train given the right of way. It is said that three of the cars was carried along just as ballast to steady the train so as to prevent the motion of the engine being felt by the big multi-millionaire.

# Legislative Candidates.

Mr. Guerry is making state prohibition the issue in Georgia this year, and says that the candidates for senator and representatives must state how they stand on this question. This is fair and right and proper, and the question ought to be settled in Georgia.

In order that the people of Bulloch may know how the candidates take the liberty of propounding the following questions to them: First: Are you in favor of state prohibition?

Second: Are you in favor of a state dispensary law, giving the various counties the right to vote on that question?

The answers of the various candidates will be published, and the people will know their position.

## THE GROWLER.

I met the growler yesterday. He was standing on the street corner as usual. He was superintending other people's business, and acting as Guardian for the whole town, and had a lot of advice to offer to every man who came by. He was growling about everything and everybody. He was in his opinion, the only perfect man that the Almighty ever made. And all of his neighbors think he was born on the wrong time of the moon. The nation, and state, county and town was all going to the demition bow-wow, and if it was not for him, the whole thing would bust in a week.

As I heard him kicking and growling I came to the conclusion his liver was out of order, on account of approaching spring.

When a fellow is built a certain way it is a hard matter to change him, and the growler does some good after all. If you don't growl, people think you are too easy to please and take the advantage of you. They would give you hell all the time at a boarding house if you did not growl some.

The growler is a nuisance very often, but he is kind of a dynamic force in a community that evens up things, and keeps people from being too well satisfied.

## The Rains.

The water that fell Friday, Saturday and Sunday has given the earth a good wetting, and there are probably no dry wells in Bulloch county. The lower part of the county is covered with water, all the bays, creeks and springs being full. All the creeks and branches have been on a boom, and Ogeechee river is rapidly rising and will be very full. It is better that the rains come now, than later in the season.

Miss Strange & Co. are opening up their new line of millinery and dress trimmings in the new brick building on the north side of the Court House square. They have an add in this week.

# FROM COON HOLLOW.

I was er thinking tuther day about my nabors, and concluded they were all nity nice and clever. If we got out of meal or flour or coffee or any such thing at our house, we would run over to nabor Smith's or Jones's and borrow it. If we needed a hoe or rake or any such article all he had to do was to go and borrow it. It is good to have nabors who will lende their property with you. I know one of them who was so kind harted that he loaned out all of his' plows, hoes cart, and done without himself. And aint it strange how we forget to return the things we borrow from our nabors. It is a mean trick to borrow our neighbors property and keep it. It is like buying them on a credit and never paying for them. Our nabors try to oblige us, and be good to us, and we go ahead and abuse their cleverness and impose on their good nature, and some day when they get tired of being imposed on, and refuse to lend us the last meal in the barrel, or the last hoe on the place we are ready to denounce them as a red flag anarchist. They get to be our enemy, and we are to blame for it.

Moral: Dont borrow your neighbors' things.

## The Long Cotton Gin

Has many advantages, compared with those of modern times. A double roller gin of two lengths, 3½ to 5 feet length. The 3½ foot gin will gin from 3 to 4 bales in ten hours. The 5 foot gin will gin from 4 to 6 bales in ten hours.

These Gins are Adjustable,

in every way, instantly, while running, to suit all classes of cotton. Hackers are raised alike, with one nut or set down with the same. Tension to both blades is given with one nut against rollers. Any pressure desired. Rest of gin adjustable every way. Rollers are the same towards and away from blades up and down, lifted by means of hand wheels. It is all done in a moment's time, while running. One man does the work of two. It saves house room, power, oil, labor, length of shaft, pulleys, leather, one crank shaft, for it has but one, and it will gin a thousand bales without being re-habited. For further instructions, write to me, the sole inventor.

**Husband and Wife Both in Jail Charged With Selling Liquor.**

Mr. H. V. Oglesby and his wife who have been residents of Parrish for some time were both committed to jail one day last week for the offence of selling liquor, and so far have been unable to give bond.

It seems that Oglesby was found guilty last October in the superior court and on his promise to reform he got off on a light fine. But it seems instead of walking in the close and narrow way he persisted in dealing out the stuff that produces drunkenness, and the people of Parrish got tired of such business and came down on Oglesby and his wife like a wolf upon the fold, and landed them both behind the bars to await the action of the Grand Jury.

## CALLIE ITEMS.

I guess the News will gladly accept a few dots from us as we have a long been silent.

The farmers around here are hustling to get their crops planted. There are fine prospects for fruit in our section.

Easter will soon be here, the ladies are busy making new Easter costumes. "Look-out for the rabbits children," they are coming with lots of pretty eggs!

Our school at Pinegrove academy is progressing nicely.

The E. E. Foy R. R. is making its way for Statesboro through this section.

Mrs. George Grooms has been very ill for sometime with appendicitis but we are glad to say that she is convalescent.

Mr. J. M. Hughes has been on the sick list for several days, but we are glad to see him about his work once more.

Mr. S. B. Hughes was up from Groveland last week and spent a few days in our midst, we were proud to see him.

**How To Cure The Grip.**  
Remain quietly at home and take Chamberlain's Cough Remedy as directed and a quick recovery is sure to follow. That remedy counteracts any tendency of the grip to result in pneumonia, which is really the only serious danger. Among the tens of thousands who have used it for the grip, not one case has ever been reported that did not recover. For sale by W. H. Ellis.

## FLY NEWS.

It seems as if Fly has been deserted, nevertheless Fly is on a boom, if she hasn't any bugs.

The farmers are very busy now planting corn and preparing to plant cotton seed.

We have a flourishing school with an enrollment of 50 scholars, conducted by Prof. J. W. Smith.

We are glad to know that Rev. Wm. Hursey's horse, after being badly kicked by another horse, is rapidly improving. He has our best wishes and deepest sympathy.

We are looking for a grand union meeting, which is to be held with Statesboro Baptist church March 28, 29, 30.

We are having plenty of rain in our community at present.

We think the wedding bells should cease for awhile and take a rest.

Mr. J. T. Roberts has made a change in where he has a fine horse instead of a mule. Look out girls. Come ahead fly correspondents, Fly is not lost, neither has anything changed but the mail route.

There will be a very large cotton crop planted in our community if nothing prevents. If people would turn their attention more to raising food and stock it would pay a good deal better.

The Sunday school at Friendship failed to organize Sunday on account of the bad weather.

The creeks branches and communities at large are overflowed with water, some one had better begin building bridges.

**Danger of Colds and La Grippe**  
The greatest danger from colds and la grippe is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for these diseases, we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that it is a certain preventive of that dangerous malady. It will cure a cold or an attack of la grippe in less time than any other treatment. It is pleasant and safe to take. For sale by W. H. Ellis.

## ELECTRIC LIGHTS AND WATER WORKS

Statesboro Will Soon Have both

The Mayor and Council, with the Citizens, have agreed to put Statesboro One More Step Forward.

The Mayor and Council held a meeting with the citizens last Friday, and it was agreed by everybody that the town of Statesboro ought to have water works and Electric Lights. The Mayor and Council will grant a franchise for twenty years to the citizens of the town for this purpose. A corporation will be formed under some name like the Statesboro Water and Electric Co., and in the course of a year the town will have the benefit of both light and water.

Mr. W. D. Davis already has a good artesian well and has pipes in town, and he will no doubt go into the new company with water works.

Larger pipes will be laid and sufficient pressure will be given to be beneficial in cases of fire in town. The citizens will have the advantages of good water at a low rate; and electric lights will be a big improvement over kerosene lamps.

Statesboro will then begin to look like a city sure enough, and will be one more forward step in making Statesboro the best town in all this section.

Every citizen of the town will have the chance to take stock in the enterprise and it will be a home institution.

Wallace Addison

May Be In A Turkish Prison At This time.

His Father Receives Letter Giving Last News of His Son.

Wallace Addison a son of Mr. W. B. Addison of this town enlisted in the army two or three years ago, and was sent to the Philippine Islands on board a transport, along with other soldiers. His father has not heard from him since he left home and has wondered why his son never wrote.

This week Mr. Addison received a letter from John Dykes who enlisted at the same time with young Addison. In the letter which was mailed in Manila in January, Dykes says: "That while at sea several of the soldiers rebelled against the ration served, and in this number was young Addison."

He says that the vessel was stopped at a Turkish port, and young Addison with others, placed in prison, and that this is the last he has heard from him.

Mr. Addison is one of our good citizens, and we hope he will yet hear news of his son.
